363 Series  
**VAY**

*yuka yachts*

Yuka Vay, specially produced for the 40-meter superyacht Vay, is a high-performance superyacht tender. It is the fastest model of the Yuka Next Series and is highly suitable for use in shallow waters due to its low draft. Its hull, produced with carbon fiber and infusion technique, offers a lighter and performance-oriented structure.

# 363 Series VAY

*yuka yachts*

## TECHNICAL SPECIFICATIONS

Total Length	11,6 m
Maximum Width	3,2 m
Draft	0,45 m
Hull Type	Twin Stepped Deep V Hull
Material	Composite, Carbon Fiber Reinforced
Maximum Speed	65+ Knot

## ENGINE

2x 450 HP Mercury Racing outboard motors, Bravo One propellers

## DESIGN AND EQUIPMENT

- Designed and naval architecture by RED.
- Wide sunbathing areas at the front and rear.
- Specially designed suspension seats for the driver and one passenger provide comfort in rough sea conditions.
- A bathroom in the cockpit area and a refrigerator in the rear cabinet.

## PERFORMANCE

Equipped with two 450 HP Mercury Racing engines and Bravo One propellers, Yuka Vay reaches a maximum speed of over 65 knots, making it one of the fastest models in its class.

These features make Yuka Vay an ideal choice for those seeking both performance and comfort.

Please check the last page for extra options available exclusively for the 363 Series.
